EXISTING SECTION 1:50

PROPOSED SECTION 1:50

ALL STEEL WORK TO HAVE DRY FACERS WHERE APPROPRIATE TO PREVENT CORROSION. ALL STEEL WORK TO BE COLOURED TO MATCH THE BUILDING'S EXTERIOR FINISH.

At building works that are intended to accept additional loadings from the new works including their foundations should be inspected by a structural engineer to ensure that the existing foundations are capable of supporting the additional loadings. If not, the necessary remedial works should be carried out before the new works are commenced.
